

gen² Panel Connector (porkchop)

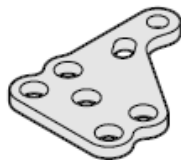

OFFICE FURNITURE®
Manufactured by National Office

Universal Connector Package

Is shipped with every panel. Additional packages a can be ordered by contacting National Office

Top connector plate for steel top cap

Bottom connector plate

Tear-drop filler

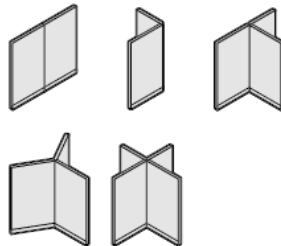

End filler

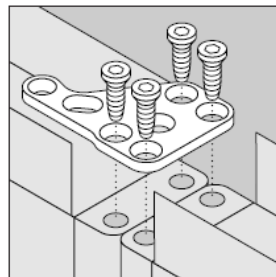

Pins

Connections

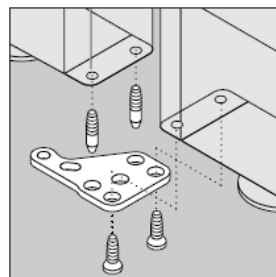

Connects panels of the same height in straight, L-, T-, Y-, or X- configurations.

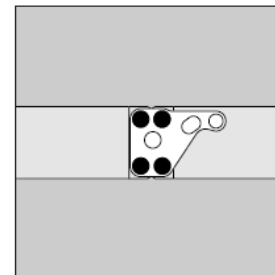

Each panel is provided with two connector plates, fillers, mounting screws,

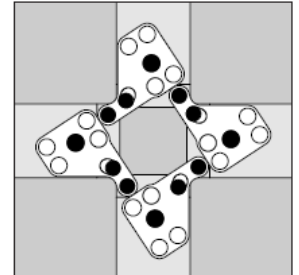

Top connector plate attaches to tops of panels

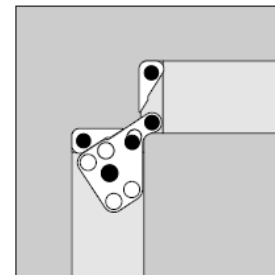

Bottom connector plate connects panels in the same way as the top connector plate

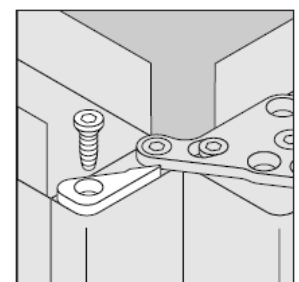

Straight configuration

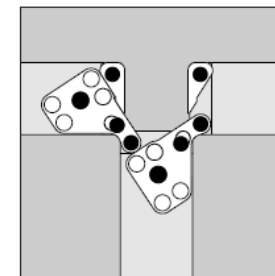

X-configuration

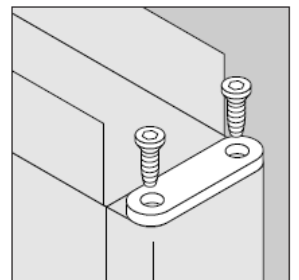

L-configuration

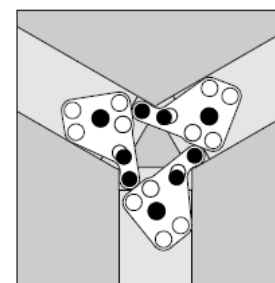

Tear-drop fillers continue the black reveal line below the top cap and create a uniform appearance at panel junctions.

T-configuration

End fillers continue the black reveal line below the top cap and create a uniform appearance at the end of a panel run.

Y-configuration can be achieved at any angle when two universal connectors are used, because one panel can pivot from where it is attached. A Y-configuration with three 120° angles can be locked in place by using three connectors instead of two.

Surface Materials

Universal connector
- Black paint only
